

Section 1: Identification of the substance/mixture and of the company/undertaking**1.1. Product identifier****Product name:** BEESWAX YELLOW**CAS number:** 8012-89-3**EINECS number:** 232-383-7**INCI name:** CERA ALBA**1.2. Relevant identified uses of the substance or mixture and uses advised against****1.3. Details of the supplier of the safety data sheet****Company name:** Naissance

Unit 9 Milland Road

Industrial Estate

Neath

Neath Port Talbot

SA11 1NJ

Tel: 0800 0430 826**Email:** info@naissance.co.uk**1.4. Emergency telephone number****Section 2: Hazards identification****2.1. Classification of the substance or mixture****Classification under CLP:** This product has no classification under CLP.**2.2. Label elements****Label elements:** This product has no label elements.**2.3. Other hazards****Other hazards:** Hot Liquid may cause thermal burns**PBT:** This product is not identified as a PBT/vPvB substance.**Section 3: Composition/information on ingredients****3.2. Mixtures****Contains:** Contains 100% Cera Alba CAS No: 8012-89-3 EC No: 232-383-7**Section 4: First aid measures**

SAFETY DATA SHEET

BEESWAX YELLOW

Page: 2

4.1. Description of first aid measures

Skin contact: Wash immediately with plenty of soap and water. No emergency measures are necessary but if adverse skin effects follow, refer for medical attention

Eye contact: Flush immediately with fresh water for at least 5 minutes while holding the eyelids open. no emergency measures are necessary but if adverse eye effects follow refer to doctor.

Ingestion: Do not induce vomiting. No emergency measures are needed but if adverse health effects follow or larger amounts are swallowed, refer for medical attention.

Inhalation: Remove from exposure area to fresh air. Keep warm and allow to rest. Get medical attention if any discomfort continues

4.2. Most important symptoms and effects, both acute and delayed

Skin contact: Not Irritant

Eye contact: Slight irritation may occur on eye contact.

Ingestion: No data available.

Inhalation: No data available.

Delayed / immediate effects: Not applicable.

4.3. Indication of any immediate medical attention and special treatment needed

Immediate / special treatment: Inhalation: High concentration of vapours may induce: Headache, nausea, dizziness. Irritant effect to the respiratory tract. Skin Contact: May cause slight irritation to the skin. Heated product may cause burns. Eye Contact: May cause slight irritation to the eyes. Ingestion: May cause nausea.

Section 5: Fire-fighting measures

5.1. Extinguishing media

Extinguishing media: Dry chemical powder. CO2 Foam Do not use water.

5.2. Special hazards arising from the substance or mixture

Exposure hazards: Slight fire and explosion hazard when exposed to heat and flames. In combustion emits toxic fumes of carbon monoxide. In combustion emits toxic fumes of nitrogen oxides.

5.3. Advice for fire-fighters

Advice for fire-fighters: Only suitably trained personnel should attempt to tackle fires. Wear self-contained breathing apparatus. Wear protective clothing to prevent contact with skin and eyes.

Section 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

Personal precautions: For non-emergency personnel: Wear suitable protective clothing. See section 8. Stop leak if safe to do so. Remove sources of ignition. For emergency responders: Wear suitable protective clothing and breathing apparatus. See section 8. Stop leak if safe to do so. Remove sources of ignition.

SAFETY DATA SHEET

BEESWAX YELLOW

Page: 3

6.2. Environmental precautions

Environmental precautions: Water may be used to flush spills away from sources of ignition. Prevent spreading by damming. Prevent any material from entering drains or waterways.
If the product contaminates waterways, rivers or drains, alert the relevant authorities in accordance with statutory procedures.

6.3. Methods and material for containment and cleaning up

Clean-up procedures: Use sand or active clay to absorb spilled substance and remove to containers for disposal. When in liquid state, cool and allow to solidify.

6.4. Reference to other sections

Reference to other sections: Refer to section 8 of SDS. Refer to section 13 of SDS.

Section 7: Handling and storage

7.1. Precautions for safe handling

Handling requirements: Handle in accordance with GMP and safety procedures. The molten product can cause severe burns. Use molten product in well ventilated areas. Wear suitable protective clothing.

7.2. Conditions for safe storage, including any incompatibilities

Storage conditions: Store in a cool, well ventilated area. Keep away from sources of ignition. Keep away from direct sunlight. Store in original containers or in other mild steel or high density polyethylene containers which are closable and clearly labelled. Clean up any spilled material immediately.

Suitable packaging: Store in original containers or mild steel or high density polyethylene.

7.3. Specific end use(s)

Specific end use(s): This material is formulated for various uses.

Section 8: Exposure controls/personal protection

8.1. Control parameters

Workplace exposure limits: No data available.

DNEL/PNEC Values

DNEL / PNEC No data available.

8.2. Exposure controls

Engineering measures: Facilities storing or utilising this material should be equipped with an eyewash facility.

Respiratory protection: No specific recommendation made, but respiratory protection may still be required under exceptional circumstances when excessive air contamination exists.

Hand protection: Protective gloves. Use impervious gloves (conforming to EN374) PVC is suitable for casual contact. If direct contact for more than 2 hours then Neoprene or nitrile gloves recommended.

SAFETY DATA SHEET

BEESWAX YELLOW

Page: 4

Eye protection: Safety glasses with side-shields.

Skin protection: Protective clothing. No special precautions are needed beyond clean working conditions and safe handling practices. Change heavily contaminated clothing.

Environmental: See sections 6, 7, 12 and 13

Section 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

State: Liquid

Colour: Yellow

Odour: Characteristic odour

Evaporation rate: No data available.

Solubility in water: Insoluble

Also soluble in: No data

Viscosity test method: <50mPas

Boiling point/range°C: No data available.

Flammability limits %: lower: No data available.

Autoflammability°C: No data available.

Relative density: 0.97

VOC g/l: No data available.

Melting point/range°C: 50-70

Flash point°C: >150

Vapour pressure: No data available.

pH: No data available.

9.2. Other information

Other information: No data available.

Section 10: Stability and reactivity

10.1. Reactivity

Reactivity: No data available.

10.2. Chemical stability

Chemical stability: Stable under normal conditions.

10.3. Possibility of hazardous reactions

Hazardous reactions: Hazardous reactions will not occur under normal transport or storage conditions.

10.4. Conditions to avoid

Conditions to avoid: Extremes of temperature (preferreably store between 5 + 39 deg C) The product is combustible when heated >300°C

10.5. Incompatible materials

Materials to avoid: Strong oxidising agents.

10.6. Hazardous decomposition products

Haz. decomp. products: Thermal decomposition or incomplete combustion may produce carbon monoxide, nitrous gases and irritating fumes.

Section 11: Toxicological information

11.1. Information on toxicological effects

Toxicity values:

Route	Species	Test	Value	Units
ORAL	-	LD50	>2000	mg/kg

Symptoms / routes of exposure

Skin contact: Not Irritant

Eye contact: Slight irritation may occur on eye contact.

Ingestion: No data available.

Inhalation: No data available.

Delayed / immediate effects: Not applicable.

Other information: No data available

Section 12: Ecological information

12.1. Toxicity

Ecotoxicity values: No data available.

12.2. Persistence and degradability

Persistence and degradability: Insoluble in water-can be separated from water in suitable effluent treatment plants.

12.3. Bioaccumulative potential

Bioaccumulative potential: No data available.

12.4. Mobility in soil

Mobility: Non-volatile.

12.5. Results of PBT and vPvB assessment

PBT identification: This product is not identified as a PBT/vPvB substance.

12.6. Other adverse effects

Other adverse effects: No data available

Section 13: Disposal considerations

13.1. Waste treatment methods

Disposal operations: Treat in accordance with EU directive 2008/98/EC. Transport to authorised waste location, or incinerate under controlled conditions (EU Directives 200/76/EC and 1999/31/EC apply.) Avoid disposing to drainage systems and into the environment

NB: The user's attention is drawn to the possible existence of regional or national regulations regarding disposal.

Section 14: Transport information

Transport class: This product does not require a classification for transport.

Section 15: Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

Specific regulations: Commission Regulation (EU) No 453/2010 of 20 May 2010 amending Regulation (EC) No 1907/2006 of the European Parliament and of the Council of 18th Dec 2006 Concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH), establishing a European Chemicals Agency, amending Directive 1999/45/EC and repealing Council Regulation Council Regulation (EEC) No793/93 and Commission Regulation (EC) No1488/94 as well as Council Directive 76/769/EEC and Commission Directives 91/155/EEC, 93/67/EEC, and 93/105/EEC and 2000/21/EC including amendments.

15.2. Chemical Safety Assessment

Chemical safety assessment: A chemical safety assessment has not been carried out for the substance or the mixture by the supplier.

Section 16: Other information

Other information

Other information: This safety data sheet is prepared in accordance with Commission Regulation (EU) No 2015/830.

* indicates text in the SDS which has changed since the last revision.
